

People and Nature Growing Together

Corporate Volunteering

Project Grow at the Upper Newport Bay

Project Grow at the Upper Newport Bay invites businesses and leadership groups of all sizes to come out for an educational, customizable volunteer program. We manage all the details – planning, supplies, and logistics – then, we lead your group through the program. All your group needs to do is show up, volunteer, learn and enjoy!

Benefits

There are many reasons for your company to sponsor Project Grow. Let's start here:

Boost morale – our events create a feeling of camaraderie and team spirit

Make a difference in your community – your employees will have the satisfaction of knowing they helped create a much needed habitat at an incredible resource in your backyard – the Upper Newport Bay

Advance your company's mission and responsibility for the environment and your community. We will list your company in our weekly newsletter (one week as highlighted sponsor) and social media platforms (facebook, Instagram).

Cost

Base price: \$500

Additional cost per volunteer: \$20/volunteer for 2-hour event; \$30/volunteer for 3-hour event

Your tax-deductible contribution supports our program's ability to offer free and reduced-cost programs to students, scouts, and community volunteers to learn about their environment and bring about positive changes through habitat restoration. Additionally, your contribution helps us provide free professional development training to university students who wish to pursue environmental-based careers.

Steps

Each program is customizable to meet your needs, but there are a few basic steps we'll work through to accomplish an event that exceeds your expectations:

1. Contact Matt Yurko (myurko@projectgrowca.org; (949) 640-0286) with your interest in our corporate sponsorship program.
2. Propose dates and times for your event. We'll finalize the event agenda and payment together.
3. Come on out!
